ABOUT ME

As a recent graduate with a strong foundation in various programming languages and technologies, I am eager to embark on my first professional role in the technology industry. My academic background has equipped me with hands-on experience in C, C++, Haskell, Java, Python, and the MERN stack (MongoDB, Express.js, React, Node.js). Additionally, I have worked with both SQL and NoSQL databases, enhancing my ability to handle diverse data storage solutions. I am excited to apply my skills and passion for technology in a dynamic and innovative environment.

ACADEMIC PATH

SEP, 2019 - JUL, 2024 | MINHO'S UNIVERSITY

Bsc. in Computer Science

 - My final project was an interactive web app that allows users to search and add new places and events in Braga. Was using React for the front end and NodeJs for the server side, and ExpressJs to create an api to my MongoDB database.

PROFESSIONAL RESUME

JULY, 2021 - NOV, 2023 | FNAC BRAGA

Store front operator
 - Approach, welcome, serve and retain customers when selling products and services.
 - Carry out store procedures, including cash registers and product replacement.

SEP, 2021 - JULY, 2024 | COMPUTER SCIENCE'S GROUP OF STUDENTS (NECC)

Team member
- Conducted welcome sessions for new students, facilitating their integration and adaptation to the university environment.
- Organized Q&A sessions, providing academic support and clarifying questions.
- Planned and executed job fairs, connecting students with potential employers and career opportunities (JOIN uminho).
- Coordinated course dinners, promoting networking and interaction between students and industry professionals.
